

QUALITY, ENERGY, ENVIRONMENT AND FOOD SAFETY POLICY

BERICAP SPAIN S.A.U. focuses its activity on the design, production, marketing and distribution of plastic closures and handles for the food and industrial sectors, with a **continued commitment** to guarantee compliance with the **functional and food safety**, *environmental* and *energy efficiency* requirements of our products and processes, responding at all times to the expectations and needs of our customers, end users/consumers and other interested parties.

To this end, and in order to constantly adapt to the external and internal environment in which our activity is located, we acquire the following commitments:

- ✚ Compliance with the **safety** requirements of our products intended to come into contact with food, including **legal and regulatory requirements** and requirements mutually agreed with customers and other interested parties, whether or not related to food safety, and including linked to energy efficiency and the environment.
- ✚ The development of **training and awareness** plans to meet product, food safety, *environmental* management and *energy performance* requirements related to specific jobs.
- ✚ The establishment of **objectives and goals** that consider compliance with the requirements of the product *environment*, *energy* and food safety (in those intended to be in contact with food) as an integral part of planning and decision-making, and the obligation to carry out a review periodically.
- ✚ The constant cost reduction and competitive market price, combined with perfection in design. *Supporting the acquisition and design of energy efficient products and services that have an impact on energy and environmental performance.*
- ✚ *Environmental protection, as well as pollution prevention, and other commitments within the context of the organization.*
- ✚ The **continuous improvement** of the effectiveness and efficiency of our Quality, *Energy, Environment* and Food Safety management system:
 - o Directing our efforts to **preventing** non-conformities and detecting opportunities for improvement.
 - o Using the data obtained from the appropriate analyses and measurements (when applicable) as a fundamental basis for **decision making**.
 - o Establishing appropriate channels for **external and internal communication** of aspects related to product safety.
 - o Communicating this Policy to all people who work for BERICAP S.A.U. and making it available to its interested parties.

J. A. Albero
