BERICAP Corporate Social Responsibility Figures

2022 Base Year Figures

In order to track the progress and achievement of the science-based targets, BERICAP has calculated its carbon footprint considering 2022 as a base year.

In addition it has established a series of KPIs:

- ▶ Absolute GHG Emission reduction for Scopes 1&2

	Base year (2022)	Target year (2034)	% SBT reduction
Scope 1+2 emissions (tCO ₂ e)	161.476	66.528	58,8%

We will achieve this target by improving the efficiency, reducing scraps, improving the intensity target for all kind of energy consumption and increasing the renewable energy proportion in our production facilities

BERICAP Corporate Social Responsibility Figures

▶ Absolute GHG Emission reduction for Scope 3

Absolute Contraction Approach

	Base year (2022)	Target year (2034)	% SBT reduction
Company Scope 3 emissions - WB2C (tCO ₂ e)	1.039.756,8	675.841,9	35,0%

92% of BERICAP`s Scope 3 emission is coming from Purchased goods & services and Upstream Transportation which also covers 80% of all BERICAP Green House Gas emissions.

BERICAP Total tCo2e Emissions Results

Base year (2022)

Exclusions:

- ▶ Category 8. Upstream leased assets (Not relevant)
- ▶ Category 10. Processing of sold products (Not relevant)
- ▶ Category 11. Use of sold products (Not relevant)
- ▶ Category 13. Downstream leased assets (Not relevant)
- ▶ Category 14. Franchises (Not relevant)

What can we achieve together?
