

FOR IMMEDIATE PUBLICATION

## **BERICAP acquires Embankment Plastics in Ireland**

**Hull/Blessington, April 9, 2026** – BERICAP, a world leader in the development, manufacture and supply of caps and closures, announces the incorporation of its 31<sup>st</sup> company in its 26<sup>th</sup> different country with the acquisition of Embankment Plastics in Ireland.

Located near Dublin, Embankment Plastics was founded in 1977 and has remained a private business to date. Their primary business has been in the dairy, food and technical closures where they have a strong reputation for product quality, customer service and reliable supply.

With a strong skills base and positive culture, Embankment Plastics represents a great manufacturing base for BERICAP to continue to build its business in Ireland which has been growing in recent years. The aim is to combine the comprehensive BERICAP product portfolio of plastic and aluminium closure solutions for the beverage, food, liquor and chemical industries with current and new local opportunities and continue to develop the site into another world class BERICAP facility providing local service and expertise.

The future BERICAP Ireland will become a subsidiary of BERICAP UK to enable the benefit of appropriate shared resource whilst maintaining local control. Short term it will continue to trade as Embankment Plastics.

### **About BERICAP**

BERICAP is one of the leading global manufacturers of plastic and aluminum closures, with 31 production plants serving customers in over 100 countries across the world. With specialized R&D centers and its own mold shop, BERICAP is ideally equipped for the development of innovative and climate-friendly closures and to support its customers' success with a comprehensive portfolio of products.

Best manufacturing practices at BERICAP are centrally coordinated and regularly reviewed at each plant to ensure superior quality. All BERICAP plants are certified as compliant with ISO 9001 and the GRSI Benchmarking standards. The company's highest priorities are product safety, consumer convenience and design flexibility, as well as process safety and sustainability. BERICAP is particularly committed to material reduction through the development of lightweight designs and the use of biobased and recycled materials (PCR). In this way it is helping to conserve natural resources and close the loop in the packaging industry.
